

## Health and Safety Policy Statement

***At Grampian Kart Club our firm belief is that an incident and accident free environment is possible every day, 365 days a year, at all our events.***

***We believe that we can operate our facilities safely:***

For our Visitors, Customers, Competitors, and Marshalls through our visible commitment to health and safety as part of our day to day activities, which is reflected in the conduct of our Committee Members and Club Members.

We are committed to providing a safe and healthy environment for our visitor's, club members and competitors. I shall ensure that Grampian Kart Club continues to invest in equipment and systems to achieve this.

***This means that all Grampian Kart Club Members and Visitors must:***

- (i) Use the facilities as they are intended to be used.
- (ii) Abide by Grampian Kart Club Rules.
- (iii) Actively promote the Grampian Kart Club Rules to new Club Members and Visitors.

***Every one of us must also:***

- take personal responsibility for health and safety,
- value health and safety above other priorities,
- lead by example,
- identify and control hazards,
- understand and comply with the rules and procedures,
- operate and maintain equipment in a condition most likely to ensure the health and safety of club members,
- report any unsafe items or conditions to the committee member so that unsafe acts or conditions can be fixed in a timely manner.

Those members elected onto the committee are entrusted with the health and safety of the Grampian Kart Club members and visitors and must maintain the required standards and condition of Grampian Kart Club equipment and facilities.

To be fully effective in their role, committee members must set a good example to the Grampian Kart Club members.

I ask all members of Grampian Kart Club to recommend improvements to our procedures and facilities so that we always provide a safe well organized safe club to our visitors.

Gavin Sutherland  
Chairman, Grampian Kart Club
